BIG SESSION OF U. S. COURT COMING

Many Liquor Law Violations Slated For Hearing at Term Beginning Monday

One of the biggest sessions of federal court that Richmond has had in some years is expected to begin here Monday. Most of the docket is made up of offenses against the national prohibition laws and some "big men" in the "game" are said to be slated for trials at this term of court. Federal officials like to try cases in Richmond. They say they are always sure of getting unbiased juries here.

The civil docket and list of juries for the coming term of court is as follows:

TOUCHING TRIBUTE TO UNKNOWN SOLDIER

(By Associated Press)

Washington, Nov. 11—America's tribute to its unknown soldier dead was paid through President Harding today with simplicity strikingly at variance with the splendid ritual that marked his homecoming a year ago. Today there was no spoken word to stir the echoes of the solemn expressions of high resolve of a year ago. Distant thudding of saluting cannon, the ring of shod cavalry horses on the hard roadway, a low command, the stifled flourish of trumpets and rifles leaped to present, and the President had come to place the wreath upon the sleeper's tomb and was gone almost before the few hundreds who had waited realized the ceremony had begun. A thin line of soldiers, sailors and marines were drawn up facing the granite block that marks the resting place of the unknown. The president stepped forward bareheaded, and gently placed the wreath against the tomb. He paused a moment, slowly raised his hand in military salute and turned away, accompanied by Secretaries Weeks and Denby and his aides.

WESTERN'S GAME MUCH TOO GOOD

Eastern Pigskin Artists Put Up Game Fight But Were Outclassed By Oponents

Although outweighed twenty-five pounds to the man, Eastern's football warriors put up a good fight against Western Normal, who were victorious by score of 45 to 6. This is the eighth straight win for the visitors and the first time they have been scored on this season. The heavy Western line proved too much for the Eastern boys who were forced to give way for the Western backs all through the game. In the first quarter the locals performed best holding the visitors to one touchdown. It was made by Pichford who crossed the line after the ball had been carried half the distance of the field by line plunges. He also intercepted a pass in the middle of the field just after the opening of the second quarter and ran 45 yards through an open field for another touchdown. Ridley, however, plunged through the line for the second Western touchdown. He was aided by wonderful interference on the part of his teammates. The point after touchdown was added via the forward pass, Pichford receiving. He made another touchdown before the half had closed, the extra point again being added by the forward pass, Freshour receiving.

The locals made their touchdown just after the beginning of the second half. Eastern kicked off to Western who carried the ball to their 25 yard line. Here they tried a pass which Captain Stone of Eastern intercepted and ran 25 yards for the six points. He made a nice catch of the pigskin and by a burst of speed soon was across the line. He played a nice defensive game throughout. Powell, Hurst and Ward also put up a fine defensive game.

The visitors added three touchdowns to their score in the last half. Ridley carried one across on a long pass while Botto plunged one over. The last markers came as a result of an Eastern fumble. It was made on the kick off, Western recovering on the 30 yard line. Cortwright was responsible for the last seven points. For the visitors Pichford, Ridley and Cartwright were best in carrying the ball.

In the last quarter a long pass from Captain Stone to Covington carried the ball within 10 yards of the goal, but they could not put it over.

The line-ups: Eastern—Covington, re; Lewis, rt; Triplett, rg; Carr, c; Spencer, lg; Jayne, lt; Word, le; Stone, qb; Moberly, rh; Long, lh; Powell, fb.

Western—Myers, re; Champon, rt; Price, rg; Croft, c; Hunt, lg; Neiselt, Barnes, le; Cartwright, qb; Pichford, rh; Freshour lh; Ridley, fb.

Substitutes: Eastern—Hurst, rt; Covington, re; Lewis, rt; Triplett, rg; Carr, c; Spencer, lg; Jayne, lt; Word, le; Stone, qb; Moberly, rh; Long, lh; Powell, fb.

LEWIS TELLS OF RAISING STANDARD

Charles D. Lewis, State Director of Teacher Training and a former member of Eastern's faculty, spoke to the students on Wednesday morning at chapel. He told of the State Department of Education at Frankfort raising the standard of the professional training required by those who go out to teach the youth of the state was unfit, one-third was good material with fine spirit but no training, and one-third was worthy of the mantle placed upon them.

With the standard raised, Mr. Lewis stated, that one-third of the teaching force would be eliminated and these vacancies must be filled with well trained students who have graduated from the grades or high school and have had normal training.

The Department of Education said Mr. Lewis, has also decided that service rendered was in proportion to the qualifications of the teacher and would receive pay accordingly. A standard has been made out by this department whereby the teacher receives pay according to his preparation.

ELBRIDGE PARK SUCCUMBS TO INJURY

News of the death of Mr. Elbridge Park reached here early Saturday morning. Mr. Park had been a patient in the St. Joseph's Hospital, having been seriously ill for several days as the result of a fall from which he suffered internal injuries. He was well known here, having moved from Irvine a number of years ago. He is survived by one brother, Mr. John Park, of Las Vegas, Nevada. Interment in Richmond cemetery at 4:30 with brief services at the grave conducted by Dr. Homer W. Carpenter.

Doctor Has Cure For Diabetes

Rochester, N. Y., Nov. 11—Dr. John Murlin, of the University of Rochester, today announced a discovery which it is believed will pave the way to cure diabetes. He asserted the pancreatic extract restored lost power to oxidize sugar to animals rendered diabetic by the removal of the pancreas and "we must now find a way to give it by mouth to humans as thyroid extract is given. Then one of the major causes of death will be completely removed."

OWSLER'S MESSAGE ON ARMISTICE DAY

(By Associated Press)

Lincoln, Neb., Nov. 11—When free men go out to battle it is the winning of peace they fight for, as "there is no such thing as the winning of a war," Alvin Owsley, the new national commander of the American Legion, said here today in an address dedicating Nebraska's new capitol.

"Death and ruin are the stakes in the game of war," he said. "ruin and death are the price men pay for peace whenever that spirit of destruction breaks its bonds. The ending of war is a great thing, but the beginning of peace is a greater thing; for with the coming of a just peace the march of mankind is taken up again; mankind going forward step by step to better things. Not as the day of the making of an end, but as the day of the beginning of a great endeavor, let us observe this anniversary."

"On this day of days I am here with you, joyful in heart to pledge the mind and soul of the American Legion to all good efforts of constructive citizenship. We have sanctified our comradeship through honor to our dead, and through the last full measure of devotion to our disabled; and that devotion to our disabled shall maintain us until the last man broken in the service of his country in the world war be fully restored and set again upon the pathway of achievement and hope."

"The American Legion is carrying out a constructive program that goes toward the building of a better citizenship. With eager zeal we are seeking to carry equal opportunity of education to every nook and corner of the land, to the homes where children of poverty dwell, to be available there as well as where wealth and luxury abound."

WOODFORD FARMS BRING GOOD PRICES

Two notable land sales were made Friday by Bolivar, Bond & Sons, real estate agents, says the Woodford Sun.

The farm of the late Samuel D. Elmore on the Shannon's Run turnpike, containing 81 acres, was sold at public auction to D. R. Bradley, of Lexington formerly of Birmingham, Ala., for \$278 50 and acre. W. A. Wade was the confiding bidder. Robert J. Talbot's farm of 134 acres, the "Marks place," four miles from Versailles on the Lexington turnpike was sold privately for approximately \$300 an acre to Mrs. E. S. Maury, of San Antonio, Texas, who bought it to present to her son, Captain Louis Maury, who had just been granted his discharge from the U. S. regular army.

The Warren county fair lost \$4,310 on this year's exhibition.

BARKLEY THROWS HIS HAT IN RING

Popular First District Congressman Candidate For Governor Next Year

Louisville, Nov. 11—In a statement issued here tonight Alben W. Barkley, democrat representative in the national house of representatives from the First Kentucky district, declared that he would be a candidate for governor at the next election, saying that "at the proper time I shall make a formal announcement, no matter how many others run, or where they come from."

"I have not intended to make any statement at present concerning the governorship, preferring to give the people at least a brief rest from politics before being dragged into a state campaign," the statement said. "However, under the conditions which seem to have developed, I deem it my duty to make this statement."

"I shall be a candidate for governor. At the proper time I shall make a formal announcement, no matter how many others run, or where they come from. I shall also outline my views on the problems which will confront the next governor in language which everybody will thoroughly understand."

"I shall not seek this office to gratify my personal ambition. My own preference was to remain in congress, as everyone knows who has talked with me about it. I decided to run at the urgent solicitation of thousands of people over this state who are as much interested in the government regeneration of Kentucky as any others are."

"This is what I shall be in the race for, and if there is one who thinks I will not fight to bring it about, let him govern himself accordingly."

LEWIS CONCERT AT NORMAL MONDAY

Sam Lewis, who sang in Richmond at the Brooks meeting at the First Presbyterian church in 1917 and pleased everyone so much that he was invited to return for a concert which he gave in the Christian church about a year later, will again arrive in Richmond for a concert at the Normal chapel at 7:30 Monday evening. This is the first number of the Lyceum program which has been planned for the coming winter.

Mr. Lewis is a distinguished Welsh tenor and has been in concert and oratoria work for eleven years. With him appear Marie Colleton, pianist, Linn Schuler, violinist and Nell Adams, reader. A rare musical treat is in store when the Lewis concert party appears here.

RECORD ENROLLMENT AT EASTERN NORMAL

The enrollment of students at the Eastern Kentucky State Normal School has reached 490 which is a record enrollment for the fall opening. At the close of the term of ten weeks last year the enrollment was only 384. President T. J. Coates states that there is fully 30 per cent increase in quality and quantity of the student body this year over that of any year before.

The preparatory work of students in former years was accepted without examination or credentials and students as young as 10 years were allowed to enter. Under a new ruling no student is accepted under 18, unless he is not conveniently near a good high school. All students must be graduates of an accredited school or must take entrance examinations. Two-thirds of the student body this fall are high school graduates, as compared to one-third in former years. Two-

thirds of the present student body will be in the college department and one-third in the normal school.

These students have enrolled for one semester of 20 weeks, instead of one term of ten weeks as before. The elimination of the term plan saves two weeks, one week of enrollment at the beginning of the term and a week at the end of each term.

The first semester will close February 10. The second semester will open February 12 and close June 30, 1923.

SEEK IN LONDON 'CRIME NAPOLEON'

Scotland Yard Believes Super-
man of Underworld Is Di-
recting Robberies.

GEM THEFTS ON INCREASE

Recent Big Robberies So Well Planned
and Executed That Police Can Do
Little More Than Suspect
Authors.

London.—Police are seeking in this city the head of what is said to be a remarkable group of international criminals. A veritable "Napoleon of crime" is believed to have established his headquarters here. He is alleged to command a well-organized band of international crooks, every one of whom is a past master of every form of nefarious craftsmanship known in the underworld. They include men of education, scientific attainments and social charm. Under leadership of their mysterious chief they are credited with conducting burglaries, cracking safes and committing costly jewel robberies that baffle detection. They are declared to work in accordance with plans of campaign prepared by the master mind with all the skill of a great military strategist.

Gem Robberies Increase.
Several papers print this story with varying degrees of sensationalism. Of late there has been an increasing number of jewel robberies. As a result an insurance company which insures a good deal of valuable jewelry has increased its premiums charged on this class of risks by 25 per cent. J. W. Bell, one of London's leading assessors, says that many recent big robberies have been so well planned and executed that the police can do little more than suspect the authors. "The people who engineer these crimes are not the ordinary type of thief," Mr. Bell says. "There is more than one real Raffles in existence to day. They hunt society gatherings and in the hotels they are popular guests."

"I know one man who has a town address, a country house near Bourne mouth, and two fine motor cars, who is more than suspected of complicity in some of these great robberies, but up to the present there has never been the slightest chance of connecting him with any of them."

Thief Worth \$150,000.
"He is of good appearance, always well dressed and would, in the ordinary way, be accepted as a guest at the houses of wealthy people."

"I know one instance in which a director of thieves is reputed to be worth \$150,000. Another successful director is a woman who has a university education and a cultured and charming personality. "The victims, both in hotels and at private houses, often are watched and shadowed for days before a suitable opportunity for the robbery occurs. It may easily cost \$1,000 or \$1,500 to meet the expenses of a successful haul, and the big thieves require frequent robberies to maintain themselves."

STRIKE COST \$45 A FAMILY

Coal Tieup Meant \$1,190,000,000
Loss, Says Mine Congress
Speaker.

Cleveland, O.—The recent strike in the coal industry caused a total loss of \$1,190,000,000, J. G. Bradley of Dundon, W. Va., former president of the National Coal association, declared here in an address before the annual convention of the American Mining congress.

Resolutions condemning the paternalistic attitude of the government, deploring the entrance of government into private business enterprises and urging industrial co-operation between labor and capital as a means of increasing production, augmenting prosperity and lowering prices were introduced.

According to Mr. Bradley, the loss in wages by the United Mine Workers of America as estimated by the American Educational association, was \$450,000,000; the loss to railroads over \$300,000,000; the loss to the public in the cost of fuel \$400,000,000 and the loss to the mine operators \$40,000,000.

"If every family in America were to pay \$45 it would barely cover this loss," Mr. Bradley said.

COOLNESS SAVES MAN'S LIFE

Catches Hold of Feed Wire Carrying
22,000 Volts, Keeps His Head
and Breaks Circuit.

New York.—George B. Wagner, an electrician of Dorchester, Mass., caught hold of a feed wire carrying 22,000 volts while working on defective wiring in the power house of the New York Central railroad at Locust avenue and One Hundred and Forty-third street.

The wire was loose and came to Wagner's chest, but instead of trying to pull himself away he dropped slowly to his knees, pulling the wire down with him until he was able to touch the concrete floor with his elbows. This broke the circuit and Wagner was thrown loose from the wire.

He was sent to Lincoln hospital, where he was treated for burns about the hands, face and neck. He was able to work again a few days later.

SAYS LARGE CROPS AREN'T GOOD TIMES

(By Associated Press)

St. Louis, Mo., Nov. 11.—The worst bit of economic buncombe prevalent today is the belief that large crops mean good times for farmers, Charles Dillon, assistant to the chairman, Western President's committee of the Association of Railway Executives told members of the Traffic Club here last night.

This year, due to the political speeches of radical candidates for office, the farmers have fallen into the mistake of blaming their troubles mainly to high rates charged by railroads, he said, adding that rates have little to do with it.

"In an address in Chicago, J. R. Howard, president of the American Farm Bureau, estimated the total annual income of the farmers at about \$10,976,000,000," Dillon said. "Of this amount, farmers spent about \$7,018,340,000 for goods, machinery and general commodities. Interest took approximately one billion dollars. Taxes amounted to \$653,000,000 and railroad transportation \$112,000,000. This makes the farmers' outgo about \$9,804,340,000."

"The Federation figures that the farmers pay twenty percent of the freight rates, or about \$800,000,000 a year in freight rates. If that is true then only eight per cent of the farmers' total expenditure is for general commodities, machinery, interest, taxes—all of which have increased as much or more than railway charges. It must be clear that the farmers are not being ruined by something costing them only eight per cent of the whole sum they spend every year."

"With bumper crops prices decline. Some crops would not yield the farmers a fair return if the railroads carried them to market free. According to latest figures, farmers produced about 350 million bushels of potatoes last year and received from \$1 to \$1.50 a bushel. They have grown more than 450 million bushels this year and the price is down to 35 to 40 cents a bushel, with poor demand even at that price."

"Fruit was grown so enormously this year that prices went to pieces and thousands of tons were thrown away or permitted to rot. While railroad rates may be blamed for part of this loss it is quite obvious that with their present operating costs, their undoubted need for new capital for development, the roads cannot afford to carry these crops at an 'out-of-pocket'

rate in order to meet dwindling prices in over flooded markets.

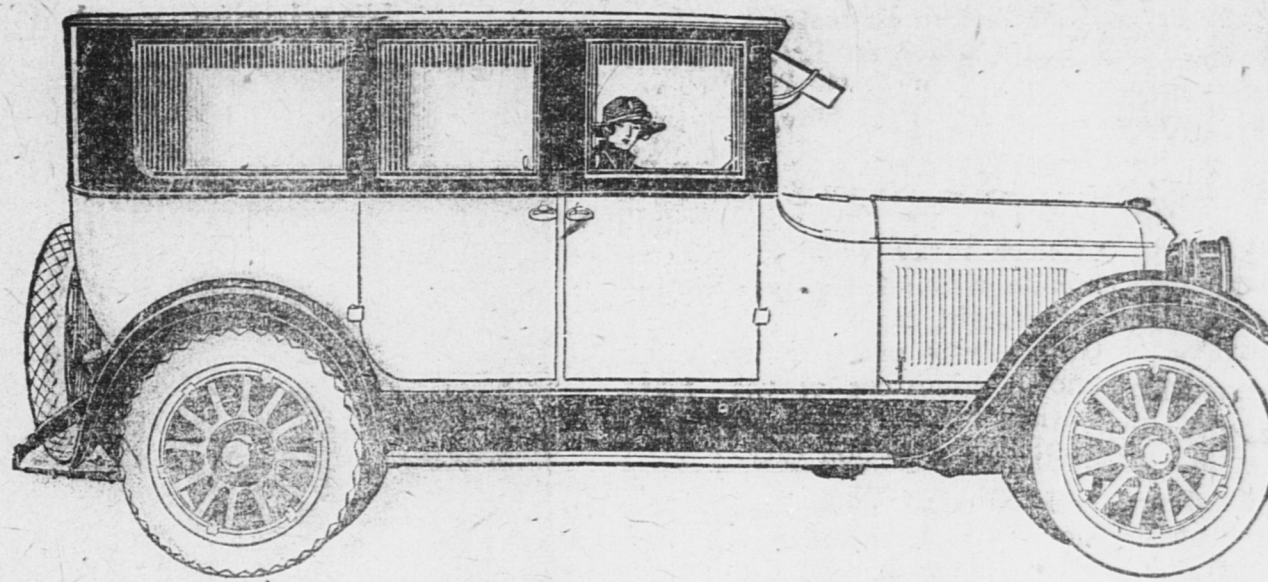

"It has become quite the custom to say that the railroads will have a net income this year of 900 million dollars. This is a big sum to a man who has no cash and whose notes are due at the bank while his crops decline in value or cannot be moved. None ever tells the farmers that the railroads earned only three and one third per cent in 1921. How many business firms would be satisfied with any such return?"

"What the farmers need now is not lower rates. They need cars and they want them moved promptly, and more than cars they need a business like system of disposing of the crops they produce. If you doubt this you have only to watch the prices go down when grain and livestock receipts at the big centers go up."

THE tax books have been turned over to me and I can give you receipts for your taxes now. E. Deatherage, Sheriff. 223-eod

The Stylish Godet

Every skirt these days should have its godet. A skirt that would otherwise be uninteresting is split to allow for the insertion of full panels either shirred or cut circularly. These panels frequently drop some inches below the hem of the frock, swirling and rippling when one walks. You see them displayed to excellent advantage in the dress sketched.

COMMUNITY SERVICE

All plans are made for the big community service to be held tomorrow night at the First Christian church. This meeting will be in the interest of the drive to be put on Monday morning at nine o'clock for the Health and Welfare League. Information has been received that President J. M. Vander Muellen will be the guest of the meeting and the principal speaker. Dr. Vander Muellen's host of friends in Richmond will be delighted to learn of his coming. He had been asked for the address originally but he felt he could not come. However, a message last night advises that he is expecting to be here.

All the uptown churches will co-operate in this meeting and it is expected to put everything in readiness for the Monday drive. Mr. Carpenter will announce tomorrow night the names of the members of the teams, all of whom are asked to be in the service.

ROME HOUSE HUNGRY

Shortage of Dwellings in Eternal City Serious Problem.

One Hundred Thousand More Rooms Are Needed to House Population—People Live in Immoral Conditions Because of Shortage.

Rome.—The "house hunger," as the lack of dwellings is called in Italian, is increasing in Rome. According to a statement by Doctor Raimondi, municipal councillor, Rome, a city of 600,000 inhabitants, needs 100,000 more rooms to house its population.

The surplus of people is now living in unhealthy and immoral conditions, Doctor Raimondi says. There are some quarters of the city where each room is occupied by from six to eight persons in the greatest promiscuity, and at Porta Metrona, one of the poorest districts of Rome, 28 persons are living in three rooms.

Also at the very gates of Rome a portion of the population has reverted to the troglodytic period and lives in grottoes excavated in the hills, while others have built straw huts to house their families.

This state of affairs is a consequence of the war. On account of the rise in the price of building materials, the construction of houses ceased practically entirely for about eight years. The government has tried to meet the situation by appropriating \$60,000,000 lire (at par \$160,000,000), to be lent at 3 per cent to workmen, civil servants, etc., for the purpose of home building.

Such amount, however, is not enough, according to Doctor Raimondi, for it provides only for the construction of about 30,000 rooms. This, together with 10,000 rooms which are being built by private individuals without state subsidy, makes a total of 40,000 rooms, leaving 60,000 more to be built within the next three years. A further subsidy of 600,000,000 lire is being agitated.

BOY'S UNUSUAL EXPERIENCE

Black Snake, Pursued by Harvester Crew, Seeks Refuge in Boy's Blouse.

Norwich, Conn.—Ray Davis, the son of G. Warren Davis, had an unusual experience with a black snake. The boy was lying on the ground in the hay field where his older brother and other men were getting in the crop, when they stirred up a three-foot black snake.

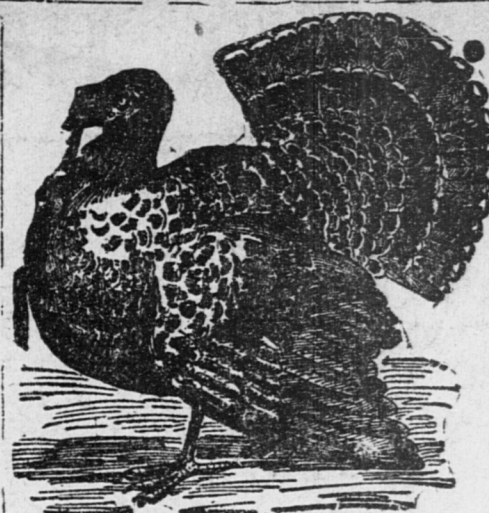

The snake made the best speed he could to get to a place of safety, and as he looped along the ground spied a refuge in the bulging blouse of the boy and darted in through a gap where a button was loose. Almost before the boy knew it the snake was wrapped around his body inside the blouse.

At once the haymakers knew that something was happening, for the boy let out a yell that brought his brother rushing to the spot. He snatched out the snake and snapped its head off.

WESTERN'S GAME

(Continued from Page 1)

Baker and Long, Western — Botto, Perkins, Morris and Rhodes.

Officials: Gumbert and Carter. The Western eleven was one of the best drilled squads seen on a local gridiron in a long time. Coach Diddle, former Centre College star, has them in charge and has taught the rugged Westerners now to play real football. The boys had a lot of pep, too. A faculty member came along with them to "write up" the game for the Bowling Green newspapers. He was Prof. Anderson. He said that between President Cherry and Coach Diddle, Western has put athletics on a high plane and that it has done a great work to develop the high school spirit which is apparent.

ARGUMENT OVER POSSESSION OF BALL

A rather unfortunate affair happened after the Eastern-Western Normal football game here Friday. Captain Croft, of the Western aggregation, at the close of the game gathered the ball in his arms and trotted off the field. Of course it is customary in large colleges that the winning eleven get the ball, but Coach Hembree stated there has never been a pigskin exchanged between the two schools and that as Eastern has won as many games from Western as they had from Eastern, he did not feel that they should be allowed to take the ball. Several Eastern players went after the ball. The crowd gathered and an argument followed. Several blows were exchanged but before anything serious could occur, Coach Hembree sent his men to the dressing room. However, Western seemingly adhering to Eastern's argument, gave up the ball.

WILLIAM DESMOND IN "WOMEN MEN LOVE"

OIL INDUSTRY'S GROWTH SINCE DRAKE'S FIRST WELL

WHEN Col. Edwin L. Drake, the oil pioneer, drilled his first well in this country and produced a maximum of 25 barrels a day, the world was using fats and greases for illuminating and lubricating purposes and the automobile was unknown.

Today there are more than 14,000 oil producers in the United States, operating more than 275,000 oil wells. Their production is at the rate of more than 1,500,000 barrels a day.

Upwards of 11,000,000 automobiles and thousands of tractors, oil-burning ships, aeroplanes, submarines, motor-boats and portable engines depend on oil and its products for power and lubrication.

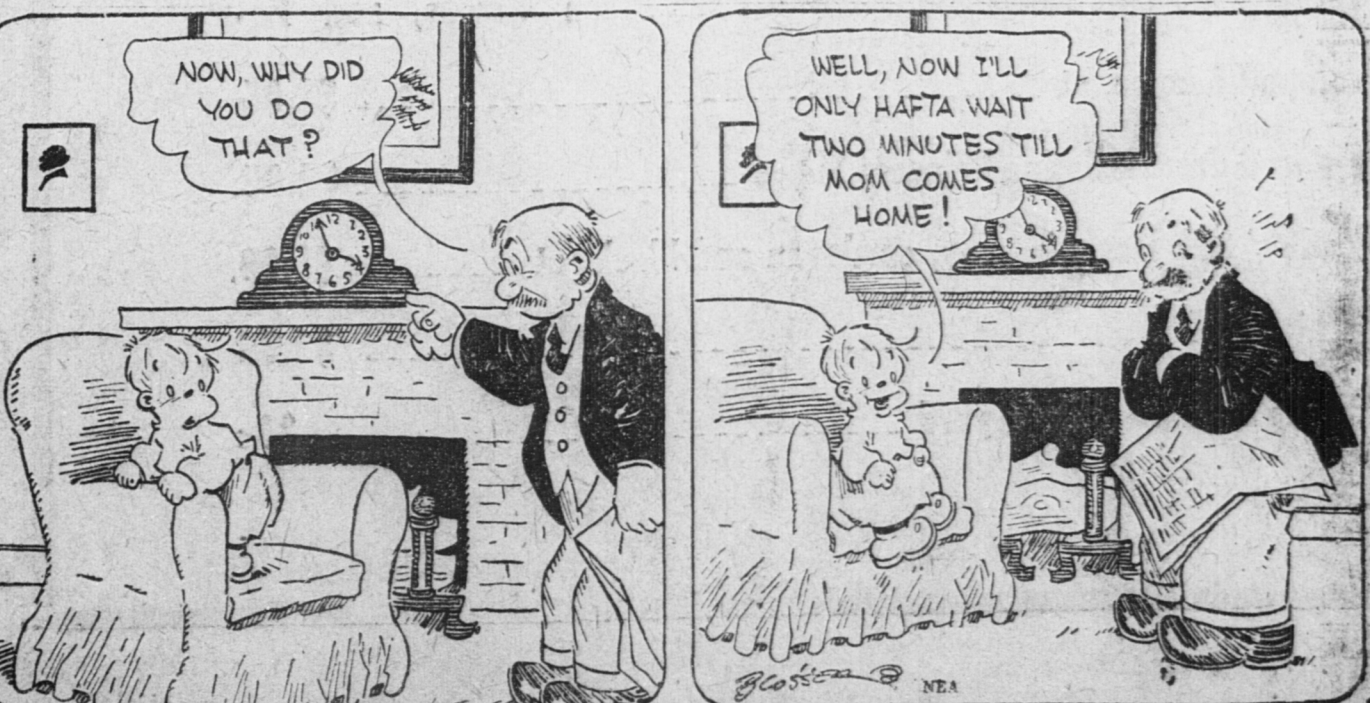

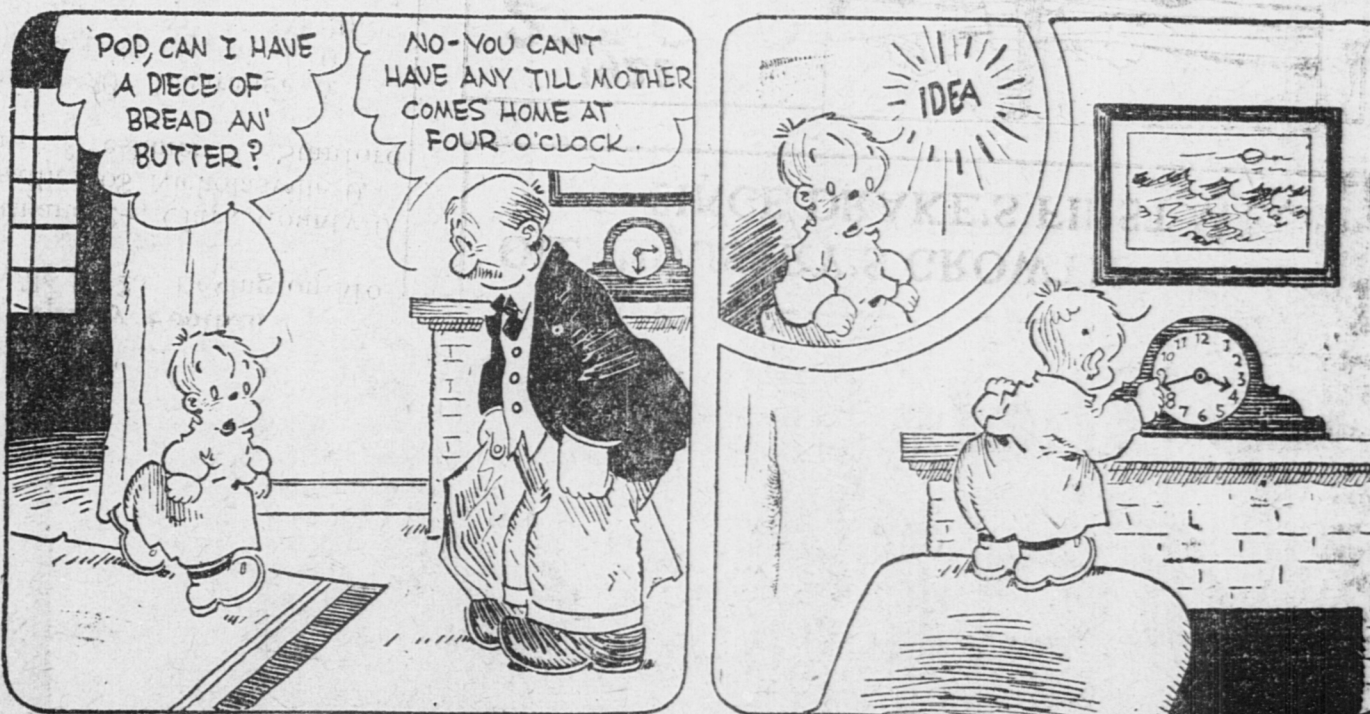

The oil industry, under the impulse of the demand created by the internal combustion engine, has attained this great growth, necessary to satisfy the demand for its products, on a foundation of commercial and economic freedom.

When Col. Drake started to drill his well, he found no ownership of oil, no combination of interest, no impediment in the holding of lands which would block his efforts to produce oil. So the situation stands today.

The entire country is open to the prospector and there is none to say who may or may not produce oil.

REMEMBER

We handle the famous Napanee Dutch kitchenete, and one installed in your home will save your good housewife in preparing your breakfast 349 steps out of 499 or ten per cent of her time.

In preparing your lunch 509 steps out of 651, or fifteen per cent of her time. In preparing your dinner 734 steps out of 996, or ten per cent of her time. Why have her tired and broke down when just a few dollars will save her.

Sewing Taborets and Desks for ladies; Smoking Stands, Office Desks, Typewriter Tables and Chairs for gentlemen—all useful articles in any home at reduced prices for this month only.

We are running our sale for this month only in order to reduce our stock and can assure you that our stock is full and complete and can furnish your home cheaper with better furniture or floor covering than any other house in central Kentucky.

Why not give us the opportunity to prove these statements to you?
